

tkIS India donates Neo Natal Ventilators to the

## Intensive Care Unit of the Pediatric Ward of KEM Hospital

Dr. Agrawal, Professor and HOD of Pediatric Department at KEM Hospital assured that the Neo Natal Ventilator, being vital equipment and used for the very serious patients, will be put to best possible use at the Intensive Care Unit of the Pediatric Ward. He was speaking at the CSR Ceremony for the handover of the Ventilators, conducted on June 5, 2017 at the Hospital. He expressed his gratitude to thyssenkrupp Industrial Solutions (India) for their contributions over the years in donating critical care equipment under the CSR scheme.

While handing over the Donor Agreement to Dr. Avinash Supe, Director (ME & MH) and Dean (GS Medical College), Mr. Samudra our Managing Director expressed happiness at the donor-donee relationship between tkIS India and KEM Hospital. We are humbled and honored to contribute to this noble cause. Being a Rotarian, Mr. Samudra felt proud that the steps taken by Rotary Club of Mumbai, Mahim who helped identify this project, are being followed by the other Clubs in Mumbai.

## Intensive Care Unit of the Pediatric Ward of KEM Hospital

Handing over a Letter of Appreciation, Dr. Avinash Supe expressed happiness at the manner in which tkIS India supports the hospital. We are touched by your passion and commitment, he said. In the true sense of the words, our two entities are Joining Hands for a Healthier World. Dr. Supe also opined that the notional value of the ventilators cannot be calculated in terms of money, the value of the equipment is much more when a life is saved. The need for saving lives is increasing and vital donations like this not only strengthen our ICU but also boosts the morale of our hospital staff.

## Intensive Care Unit of the Pediatric Ward of KEM Hospital

Mr. M. B. Joshi, Vice President – Electrical and Instrumentation leader for this project spoke next. He appreciated the hospital for the wonderful job they are doing by extending healthcare facilities to the needy class of the society, and thanked the doctors for their support on the project through their critical inputs concerning the ventilators.

The ceremony was concluded with the inauguration of the Neo Natal Ventilators.

Vote of Thanks was given by Dr. Milind Tullu, Professor of Pediatrics & Pediatric Intensive Care Unit.
