The Chemical Process Industries turned out for rewarding conference recently, with the Bureau of Indian Standards organising a one-day meet on the **'Enhancement of Global Competitiveness by Standardization in Chemical Plants and Related Equipment'** on Nov 29, 2017 at the Indian Rubber Manufacturers' Research Association headquarters in Thane.

The event was chaired by our **Executive Director - Technologies Mr PV Chepe**, who gave the key note address to a well-attended gathering of industry professionals. The Technical sessions included papers from BPCL, Reliance Industries and the Bureau of Indian Standards.

In addition to the technical sessions, a panel discussion on various equipment standards for materials such as glass, graphite, metals, HDPE, Polymers etc was also held.

The event was supported by a number of industry majors like RCF, Reliance, EIL etc.
